

I understand that you are considering replacing national and regional programming with LPFM stations. I wholeheartedly object to this proposal, unless you are willing to protect national stations such as the one I listen to, K-LOVE Christian Radio. I have many Christian friends who also listen to K-LOVE, and I believe that they would agree with me about the lack of worthwhile Christian broadcasting in our area. K-LOVE provides family-friendly, commercial free programming, which is very difficult to find in our area. Please consider the effect of your decision on those of us who listen to nationwide stations.
